CAREER OBJECTIVE

Passionate and curious Artificial Intelligence and Data Science student with a strong interest in Python, SQL, data analysis and problem-solving. Skilled in working with databases, data cleaning, and exploratory data analysis through academic projects and internships. Eager to learn, adapt, and contribute to building data-driven solutions as a Data Engineer.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript
- Query Language: SQL
- Data Analysis: Data Cleaning, Exploratory Data Analysis (EDA)
- Databases: MySQL, MongoDB
- Tools & Platforms: Git, GitHub, VS Code, Microsoft Excel

SOFT SKILLS

Problem Solving | Team Collaboration | Adaptability | Fast Learner | Time Management

PROJECTS

- **Food Calorie Estimator**
Tech Stack: Python, TensorFlow, OpenCV, NumPy, Streamlit
Developed an AI-powered food calorie estimation system using image recognition to identify food items and estimate calorie content from uploaded images.
- **DailyWage**
Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, JavaScript
Built a workforce management web application to manage worker records, attendance, wage calculations, and payment tracking using MongoDB.
- **Campus Connect**
Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, JavaScript
Developed a web-based mentorship platform connecting juniors and seniors with secure user management and communication features.

EDUCATION

- **B.Tech in Artificial Intelligence and Data Science**
KGISL Institute of Technology, Coimbatore
2023 – 2027 (Pursuing) | CGPA: 8.04
- **Higher Secondary Certificate**
Kurinji School, Namakkal
Completed: 2023

INTERNSHIP

Data Science Intern – Ether Services

June 2025 – July 2025

- Developed an AI-powered Food Calorie Estimation system using Python and deep learning techniques.
- Performed image preprocessing and data preparation for model training.
- Gained practical experience in computer vision and machine learning model development.
